Candlemaking with natural soy wax, wood wicks and fragrance

All the information regarding the candlemaking and/or soap making course is below, including the sign-up form. A **standard waiver** is also attached because we work with a glue gun, wax and a stove.

CANDLEMAKING - £45

The cost for **CANDLEMAKING** would be £45 for each participant, if you are bringing a friend you're entitled to £5 off one admission (or the total amount if you're paying together). Please call or email me if you have any questions or concerns.

During the workshop we make a **candle from natural soy wax** with fragrance. The class is informative and informal. It is done in my cosy home kitchen where we also have a cuppa and some biscuits.

Candlemaking is a science and an art! There are a lot of factors that come together to make a good soy candle: The type of wax, the type/size of wick, the type/size of container, the environment and temperature in which you are making your candle, and amount and type of fragrance you use. All of these components can react in different ways with each other causing undesirable side effects in your candle or upon burning. Normally one would have to do a lot of testing and re-testing to find the correct combination of ingredients that make a nice quality candle (and that costs £!). But I've already done all that!

What you learn:

- How you can make a fabulous scented candle (or tealights) made from natural soy wax in a tin container, at home in your own kitchen.
- Candle-making science, and advice.
- Which materials and bits you need to make your own & which work best.
- Where you can buy the materials you need.
- What to do, and what NOT to do.
- What makes a good candle.

In the workshop you'll get a condensed course/instruction booklet and a long form version emailed to you.
No note taking is necessary!

FAST TRACK TO CANDLEMAKING!

After the workshop, want to give it a go at home without multiple online orders of materials?

You can **purchase partial kits for £16** which include:

5 x already prepared wicked tins

Plus 875 grams of wax - enough for 5 candles,

Then all you need is to round up some items from your kitchen then shop for your favourite fragrance!

New! As I have fragrance overstock – I will be bottling and selling off scents in various quantities so you can choose and mix your own!

HOW TO ENROL

To enrol in this course it is kindly asked you fill out the attached form and pay either pay a £10 deposit - then the balance when you arrive, or pay in full in advance. This can be done easily via **PayPal to pepprrr@gmail.com** - just state your name and the date. The payment/deposit is **non-refundable, however you can reschedule** at no extra cost if you cannot attend.

BUT FIRST...

Safety is always in mind when handling materials, using glue guns, and working near a stove. Everything is done to provide a safe environment, however sometimes accidents can happen. (Just as they can when you're heating soup!) It is asked that anyone planning to reserve a spot in this course, **sign a simple waiver** which is below with the participant sign-up form.

You can sign the waiver, scan and **email it back** to this email address **OR bring it with you** to the course. If you forget to bring it, I will have extra copies here, but **a copy must be signed before you start.**

Please note: **Candles must cure for 48 hours - This means NOT being moved from the place where they are being cooled.** They can be picked up and taken home after the curing period. **Soap also needs to settle** for a few hours before it can be moved.

If you allergic to pets, please note I have dogs that may be in another part of my home.

If that sounds good, please fill out the form and email it back!
